PROFESSIONAL SUMMARY

Aspiring **Data Analyst** with 2.5+ years of professional experience in business development and market analysis, combined with hands-on expertise in **Excel, SQL, Python, Power BI, and Tableau**. Skilled in **data cleaning, exploratory data analysis (EDA), dashboard development, KPI tracking, and data visualization** to generate actionable insights. Experienced in transforming business data into meaningful reports to support **data-driven decision making and business intelligence**.

TECHNICAL SKILLS

Data Analysis: Data Cleaning • Data Wrangling • Exploratory Data Analysis (EDA) • Statistical Analysis • KPI Analysis • Trend Analysis • Data Interpretation

Data Visualization Tools: Power BI • Tableau • Excel Charts • Dashboard Reporting

Tools & Technologies: Excel • SQL • Python • MongoDB

Excel: Pivot Tables • VLOOKUP/XLOOKUP • Data Cleaning • Conditional Formatting • Dashboard Creation

Power BI: Power Query • DAX (Basic Measures) • Data Modeling • Dashboard Development • Data Visualization

SQL: Joins • Subqueries • Aggregations • Data Filtering • Window Functions • Stored Procedures • Triggers

Python: Core Python • Data Structures • Loops • OOP Concepts • Data Processing

Business Skills: Data Storytelling • Business Analysis • Reporting • Presentation Skills

DATA ANALYTICS PROJECTS

1. Power BI Sales Dashboard – Chocolate Sales Analysis

- Built a Power BI dashboard to analyze global chocolate sales performance.
- Cleaned and transformed data using Power Query and applied star schema data modeling.
- Created DAX measures and visualizations to track KPIs and analyze country-wise and monthly sales trends.

Tools: Power BI • Power Query • DAX • Data Modeling • Data Visualization

2. Healthcare Provider Analytics Dashboard – Patient & Service Analysis

- Developed a SQL and Power BI dashboard to analyze patient data and hospital performance.
- Extracted data using SQL and cleaned datasets using Power Query.
- Designed visualizations to track patient trends and department-wise visits.

Tools: SQL • Power BI • Power Query • DAX • Data Visualization

3. Retail Sales Analysis Dashboard

- Analyzed retail sales data using SQL to identify top-performing products and sales trends.
- Built an interactive Power BI dashboard to visualize revenue, product performance, and regional sales insights.

Tools: SQL • Power BI • Data Visualization

PROFESSIONAL EXPERIENCE

Business Development Executive

Edreamz Technology, Pune | Oct 2023 – May 2025
Shanti Info Soft, Indore | Feb 2023 – Oct 2023
Cyber Infrastructure, Indore | Aug 2022 – Jan 2023

- Conducted market research and analyzed customer data to identify business opportunities.
- Generated leads through data-driven outreach campaigns and supported sales reporting.
- Worked with business data to track customer trends, lead performance, and market opportunities.

CERTIFICATIONS

- Advanced Certification in Data Analytics – SEED Info-tech (2025)
- Data Visualization: Empowering Business with Effective Insights – Tata Forage
- GenAI-Powered Data Analytics Job Simulation – Forage
- Data Analytics Job Simulation – Forage

EDUCATION

MBA - SAGE University, Bhopal | 2020 – 2022

B.Com - Barkatullah University, Bhopal | 2017 – 2020
